Cable 1973

It is a special privilege to salute the Cooper Union graduating class of 1973. In many ways I feel a special kinship to your class for most of us were freshmen here in September 1969. Much has happened in these four years and I would like to believe that we have made progress. Your interest, your support and, in many cases, your participation made much of it possible. At the same time I wish to say thanks but also to wish you success and happiness in your careers ahead.

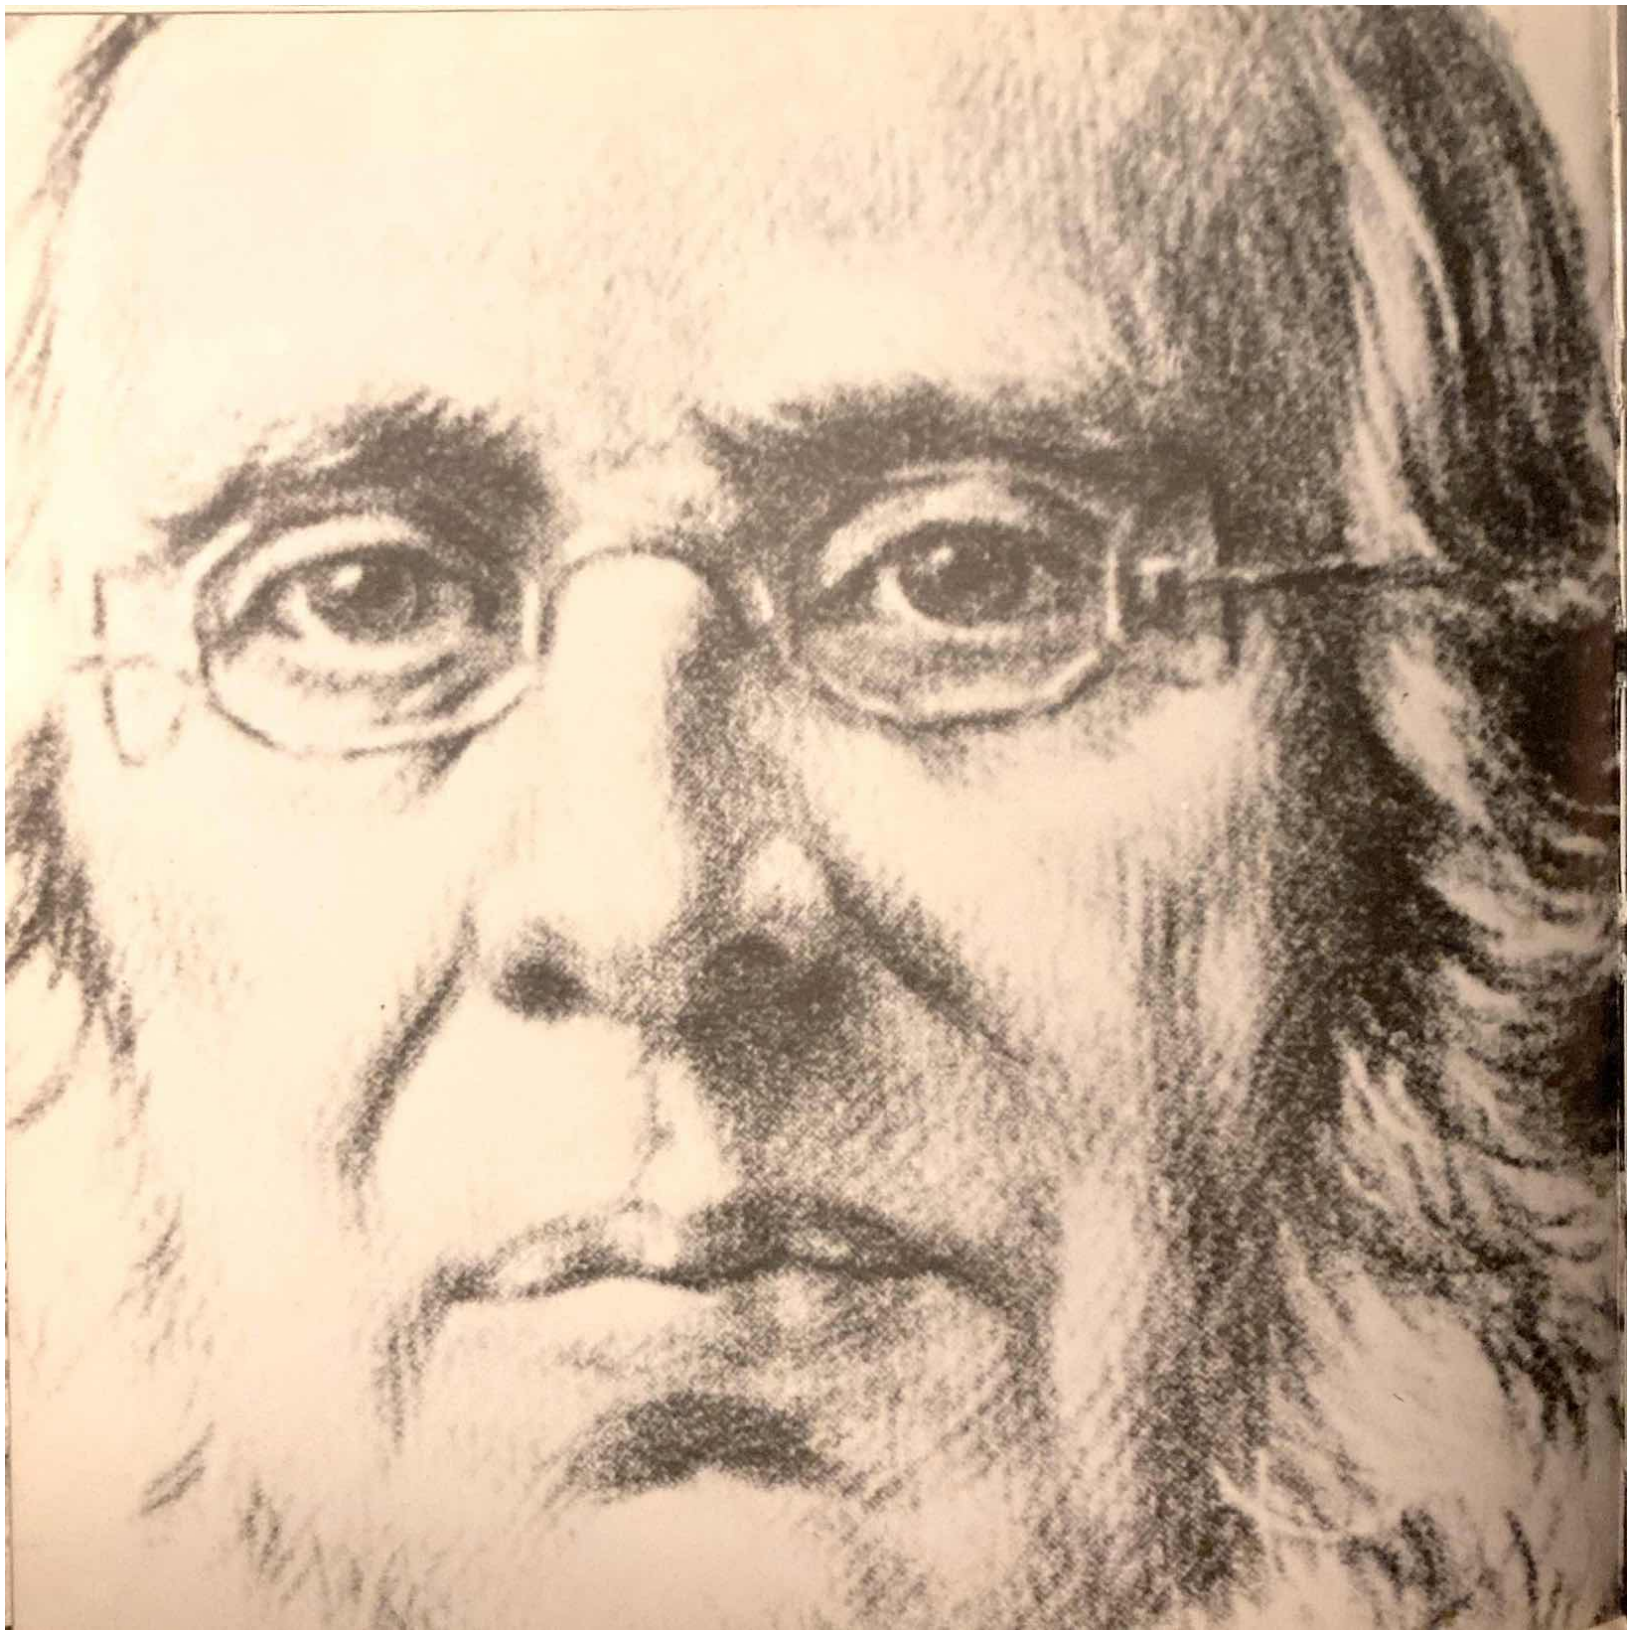
vances such as groping for some middle ground between the right and the wrong, vain as the search for a man who should be neither a living man nor a dead man—such as a policy of "don't care" on a question about which all true men do care—such as Union appeals beseeching true Union men to yield to Disunionists, reversing the divine rule, and calling, not the sinners, but the righteous to repentance—such as invocations to Washington, imploring men to unsay what Washington said, and undo what Washington did.

Neither let us be slandered from our duty by false accusations against us, nor frightened from it by menaces of destruction to the Government nor of dungeons to ourselves. LET US HAVE FAITH THAT RIGHT MAKES MIGHT, AND IN THAT FAITH, LET US, TO THE END, DARE TO DO OUR DUTY AS WE UNDERSTAND IT.



1973

It has been both a year of joy
and of tragedy:
a war ends, and presidents die.
We have seen the lost returned
and the innocent murdered.
This year is the culmination of our work,
and the end of it, here.

We have worked long under this roof,
united yet divided,
and we owe this chance
to learn
to a man who desired
a better future for all.

(dated April 29, 1859)

The great object I desire to accomplish
by the establishment of
an institution devoted to the advancement
of science and art,
is to open the volume of nature
by the light of truth-
so unveiling the laws
and methods of Deity,
that the young
may see the beauties of creation,
enjoy its blessings,
and learn to love the Being ...

Peter Cooper

THIS WAS HIS DREAM.
LET US LOOK TOWARDS THE FUTURE
